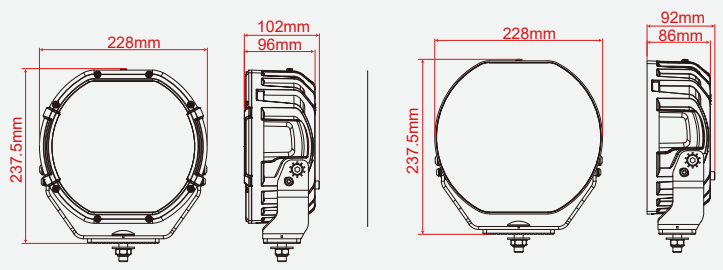
REVOLUTIONARY CONVENIENT MODE-SWITCHING METHOD, ENABLE TO SWITCH MODE EASILY WHEN DRIVING, NO NEED TO STOP AND GET OFF THE CAR ANYMORE

Revolutionary Convenient Mode-switching Method, enable to switch mode easily when driving, no need to stop and get off the car anymore.

Enough interval time to prevent accidental mode switching during driving.

* **First time powered on, the light is in E-mark mode by default.**
* **Temperature Control System works under Boost mode.**
  Mode Switching Method: Turn on the light and wait for 2S, then turn off/on the light for 2 times, the mode will be changed.
  - When the light is working, turn off the light for 2S, and then proceed the operation above for mode switching.
  - The lights have memory. They will work in the mode of last usage when it is on.



With metal front ring

Bezel-less
